Index to Volume 129

This annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (January): 1–112
Number 2 (April): 113–208
Number 3 (July): 209–320
Number 4 (October): 321–464

AUTHOR INDEX

Anolli, L., & Ciceri, R. *Analysis of the vocal profiles of male seduction: From exhibition to self-disclosure.* 149–169.

Beran, M. J. *Maintenance of self-imposed delay of gratification by four chimpanzees* (Pan troglodytes) *and an orangutan* (Pongo pygmaeus). 49–66.

Bersh, P. J., Whitehouse, W. G., & Laurence, M. T. *Shock-duration reduction on the basis of interresponse times: The effect of the interresponse time limit.* 430–442.

Bloom, C. M., Anch, A. M., & Dyche, J. S. *Behavioral effects of chronic melatonin and pregnenolone injections in a myelin mutant rat* (taiep). 226–237.

Diehl, V. A., & Bergfeld Mills, C. *Procedural text structure and reader perceptions and performance.* 18–35.

Frick-Horbury, D. *The effects of hand gestures on verbal recall as a function of high- and low-verbal-skill levels.* 137–147.

King, B. M., Brandt, A. E., & Weatherly, J. N. *Up or down: The influence of upcoming reinforcement on consummatory and operant behavior.* 443–461.

King, D. L. *A brief delay decreases perceived similarity and improves discrimination.* 192–201.

Kreiner, D. S., Schnakenberg, S. D., Green, A. G., Costello, M. J., & McClin, A. F. *Effects of spelling errors on the perception of writers.* 5–17.

Lambert, J. V., & Whitehouse, W. G. *Conditioned inhibition of cyclophosphamide-induced taste aversion.* 68–75.

Larson, S. J. *Behavioral and motivational effects of immune-system activation.* 401–414.

Libkuman, T. M., Otani, H., & Steger, N. *Training in timing improves accuracy in golf.* 77–96.

Lippman, L. G., Bennington, K., & Sucharski, I. L. *Contextual connections to puns in Tom Swifties.* 202–208.

McSweeney, F. K., & Swindell, S. *Common processes may contribute to extinction and habituation.* 364–400.

Pallier, G., Wilkinson, R., Danthiir, V., Kleitman, S., Knezevic, G., Stankov, L.,

Larson, S. J. *Behavioral and motivational effects of immune-system activation.* 401–414.

Libkuman, T. M., Otani, H., & Steger, N. *Training in timing improves accuracy in golf.* 77–96.

Lippman, L. G., Bennington, K., & Sucharski, I. L. *Contextual connections to puns in Tom Swifties.* 202–208.

McSweeney, F. K., & Swindell, S. *Common processes may contribute to extinction and habituation.* 364–400.

Pallier, G., Wilkinson, R., Danthiir, V., Kleitman, S., Knezevic, G., Stankov, L.,

& Roberts, R. D. *The role of individual differences in the accuracy of confidence judgments.* 257–299.
Roberts, W. A., & Roberts, S. *Two tests of the stuck-in-time hypothesis.* 415–429.
Stamps, A. E., III. *Entropy, visual diversity, and preference.* 300–320.
Taylor, J., & Deane, F. P. *Development of a short form of the Test Anxiety Inventory (TAI).* 127–136.
Tekman, H. G. *Perceptual integration of timing and intensity variations in the perception of musical accents.* 181–191.
University of North Dakota, October 2001. *Abstracts from the Northern Lights Psychology Conference.* 97–111.
Wallace, J. C., Kass, S. J., & Stanny, C. J. *The Cognitive Failures Questionnaire revisited: Dimensions and correlates.* 238–256.
Weatherly, J. N. *Animal behavior: What's in it for me?* 325–327.
Winefield, A. H., Green, A., & Metzer, J. C. *Perceptual learning in the rat: Stimulus differentiation or latent inhibition of common elements?* 170–180.
Witte, K. L., Freund, J. S., & Csiki, I. *Case-mixing effects on anagram solution.* 117–126.
Worthen, J. B., Baker, J. D., Hutchens, S. A., & Nicodemus, P. D. *Memory for frequency of bizarre and common stimuli: Limitations of the automaticity hypothesis.* 212–225.
Worthen, J. B., & Eller, L. S. *Test of competing explanations of the bizarre response bias in recognition memory.* 36–48.
Zentall, T. R. *A cognitive behaviorist approach to the study of animal behavior.* 328–363.

TITLE INDEX

Abstracts from the Northern Lights Psychology Conference. *University of North Dakota, October 2001.* 97–111.
Analysis of the vocal profiles of male seduction: From exhibition to self-disclosure. *Luigi Anolli & Rita Ciceri.* 149–169.
Animal behavior: What's in it for me? *Jeffrey N. Weatherly.* 325–327.
Behavioral and motivational effects of immune-system activation. *Susan J. Larson.* 401–414.
Behavioral effects of chronic melatonin and pregnenolone injections in a myelin mutant rat (*taiep*). *C. M. Bloom, A. M. Anch, & J. S. Dyche.* 226–237.
A brief delay decreases perceived similarity and improves discrimination. *Donald L. King.* 192–201.
Case-mixing effects on anagram solution. *Kenneth L. Witte, Joel S. Freund, & Ildiko Csiki.* 117–126.
A cognitive behaviorist approach to the study of animal behavior. *Thomas R. Zentall.* 328–353.
The Cognitive Failures Questionnaire revisited: Dimensions and correlates. *J. Craig Wallace, Steven J. Kass, & Claudia J. Stanny.* 238–256.
Common processes may contribute to extinction and habituation. *Frances K. McSweeney & Samantha Swindell.* 364–400.
Conditioned inhibition of cyclophosphamide-induced taste aversion. *Joseph V. Lambert & Wayne G. Whitehouse.* 68–75.
Contextual connections to puns in Tom Swifties. *Louis G. Lippman, Kristine Bennington, & Ivan Laars Sucharski.* 202–208.
Development of a short form of the Test Anxiety Inventory (TAI). *Joanne Taylor & Frank P. Deane.* 127–136.
The effects of hand gestures on verbal recall as a function of high- and low-verbal-skill levels. *Donna Frick-Horbury.* 137–147.
Effects of spelling errors on the percep-

tion of writers. *David S. Kreiner, Summer D. Schnakenberg, Angela G. Green, Michael J. Costello, & Anis F. McClin.* 5–17.

Entropy, visual diversity, and preference. *Arthur E. Stamps III.* 300–320.

Maintenance of self-imposed delay of gratification by four chimpanzees (*Pan troglodytes*) and an orangutan (*Pongo pygmaeus*). *Michael J. Beran.* 49–66.

Memory for frequency of bizarre and common stimuli: Limitations of the automaticity hypothesis. *James B. Worthen, Jeffrey D. Baker, Scott A. Hutchens, & Paul D. Nicodemus.* 212–225.

Perceptual integration of timing and intensity variations in the perception of musical accents. *Hasan Gürkan Tekman.* 181–191.

Perceptual learning in the rat: Stimulus differentiation or latent inhibition of common elements? *Anthony H. Winefield, Alisa Green, & J. C. Metzer.* 170–180.

Procedural text structure and reader perceptions and performance. *Virginia A. Diehl & Carol Bergfeld Mills.* 18–35.

The role of individual differences in the accuracy of confidence judgments. *Gerry Pallier, Rebecca Wilkinson, Vanessa Danthiir, Sabina Kleitman, Goran Knezevic, Lazar Stankov, & Richard D. Roberts.* 257–299.

Shock-duration reduction on the basis of interresponse times: The effect of the interresponse time limit. *Philip J. Bersh, Wayne G. Whitehouse, & Michael T. Laurence.* 430–442.

Test of competing explanations of the bizarre response bias in recognition memory. *James B. Worthen & Laura S. Eller.* 36–48.

Training in timing improves accuracy in golf. *Terry M. Libkuman, Hajime Otani, & Neil Steger.* 77–96.

Two tests of the stuck-in-time hypothesis. *William A. Roberts & Shelley Roberts.* 415–429.

Up or down: The influence of upcoming reinforcement on consummatory and operant behavior. *Brent M. King, Andrew E. Brandt, & Jeffrey N. Weatherly.* 443–461.
